D8.10 7SHIELD Video

Work Package:	WP8 Dissemination, Impact Creation and Exploitation Plan
Lead partner:	CS GROUP (CS)
Author(s):	Yasmine Boulfani (CS) and Mathias Paulet (CS)
Due date:	February 2023
Version number:	1.0 Status: Final
Dissemination level:	Public

Project Number:	883284	Project Acronym:	7SHIELD
Project Title:	Safety and Security Standards of Space Systems, ground Segments and Satellite data assets, via prevention, detection, response and mitigation of physical and cyber threats		
Start date:	September 1st, 2020		
Duration:	30 months		
Call identifier:	H2020-SU-INFRA-2019		
Topic:	SU-INFRA01-2018-2019-2020 Prevention, detection, response and mitigation of combined physical and cyber threats to critical infrastructure in Europe		
Instrument:	IA		

Revision History

Revision	Date	Who	Description
0.1	15/02/2023	CS	First release of the report
0.2	23/02/2023	CS	Updates on pictures
1.0	28/02/2023	CS	Final version after ENG and SERCO peer review

Quality Control

Role	Date	Who	Approved/Comment
Internal review	27/02/2023	ENG	Approved with minor comments
Internal review	28/02/2023	SERCO	Approved with minor comments

Disclaimer

This document has been produced in the context of the 7SHIELD Project. The 7SHIELD project is part of the European Community's Horizon 2020 Program for research and development and is as such funded by the European Commission. All information in this document is provided 'as is' and no guarantee or warranty is given that the information is fit for any particular purpose. The user thereof uses the information at its sole risk and liability. For the avoidance of all doubts, the European Commission has no liability with respect to this document, which is merely representing the authors' view.

Executive Summary

This document presents the official 7SHIELD video which is intended to present the outcomes of the project. The video is intended for 7SHIELD partners and the European Commission to further communicate the scope of the project as well as to continue to disseminate and communicate about the project and its sustained visibility after its closure.

The 7SHIELD video describes the project's scope, challenges and idea and it can be found on the project's website (https://www.7shield.eu/media/videos) as well as on LinkedIn page.

Table of Contents

List of figures

1. Introduction

The purpose of this document is to present the short project video that aims to showcase the results of 7SHIELD. Its objectives and outcomes are to continue to disseminate and communicate about the project and its sustained visibility after its closure to partner stakeholders.

The project video is also intended to be used by the European Commission, in accordance with Article 38.2 of the Grant Agreement, to continue to disseminate the scope and idea of the project.

The document is linked to WP8, deliverable D8.10 – 7SHIELD Video and is prepared as part of task 8.1 – Communication and Dissemination Actions, which describes the activities undertaken by the Consortium to maximize the visibility of the project.

2.   Video presentation

The 7SHIELD video is produced by CS partner with the help of the Consortium.

It has been designed to create a promotional project video to be easily understood from a diverse audience.

The video is 4 minutes long and offers the following content:

- Introduction to the project topic and challenges;
- Introduction to 7SHIELD solution and how it answers to the challenges;
- Introduction to the 5 Pilot Use Cases.

The video is composed of images, graphics, and short videos collected from the 7SHIELD project deliverables and the 15 videos produced by the project partners as part of their activities.

The whole video is subtitled in English.

The video is published and distributed to the public via the project's website and LinkedIn page, which is the only social media platform used to relay information about the project and its results to a public audience, due to the sensitive information related to the project.
